Job Title: Business Analyst (MBA Graduate Role)

Location: On-site (London HQ)
Department: Strategy & Business Operations
Employment Type: Graduate Role

About the Role:
We are seeking an ambitious **MBA Graduate** to join our dynamic Business Strategy team. As a Business Analyst, you will be at the heart of strategic decision-making, helping to shape and grow the business through data-driven insights and cross-functional projects.

Responsibilities:

- Analyze market trends, competitors, and business performance to generate actionable insights.

- Support cross-functional initiatives including go-to-market strategies, financial modeling, and operational optimization.

- Present findings and strategic recommendations to senior leadership.

- Contribute to business planning and quarterly OKR cycles.

- Lead or support key initiatives across product, marketing, and operations.

Requirements:

- MBA degree (completed within the last 1–2 years) from a top-tier institution.

- Strong analytical and quantitative skills.

- Excellent communication and presentation abilities.

- Proficiency in Excel, PowerPoint, and business intelligence tools (e.g., Tableau, Looker).

- A proactive, curious, and collaborative mindset.

Nice to Have:

- Prior internship or work experience in consulting, finance, or tech.

- Familiarity with SQL or Python for data analysis.
